

## Recipe horse treats with petplus® zeolite

Only the best ♥ for your 🐾

### Ingredients

280 g oat flakes  
120 g petplus® zeolite  
3 ripe bananas  
4 apples  
5-6 medium carrots  
200 ml water

### Preparation

Grate or coarsely mash apples and carrots and mix with the mashed bananas. In a large mixing bowl, mix the oatmeal, petplus® zeolite and water, then add the fruit. Mix everything into a smooth and easily kneadable dough. If the dough is too soft, you can add a little more petplus® zeolite to firm up the consistency. Shape the dough into round or elongated treats and bake in a preheated oven at approx. 160°C for 40-60 minutes. Watch carefully that the treats do not get too dark. Let the petplus® horse treats air dry for a day and do not store them in an airtight container. They can be stored in a cool place for several days.

Good luck and have fun pampering!
